WARMCO SHOWCASES NEW PRODUCT AT BOOTH 222

Display your baked goods and maintain freshness with WarmCo's new featured item

WarmCo's Two-Door Mini Display Warmer with Three Shelves is perfect for keeping your food hot and fresh. The exterior tempered glass design, interior incandescent lighting, 470 watts of heating power, and slanted shelving provides heat retention and maximizes the visibility of display for baked goods and impulse buys. Thermostatic controls provide accurately adjustable temperature. See the Mini Display Warmer in action at the National Restaurant Association Show, Booth 222.
